**THE PASSPORT NAME YOU TRUST.
THE HOBIE QUALITY YOU EXPECT.**

All-New Rotomolded Construction

Introducing the Mirage Passport R Series. Powered by the patented MirageDrive® GT pedal propulsion system with Kick-Up Fin technology, the Passport R Series kayaks are versatile enough to take you wherever the fish are biting on your next kayak fishing adventure. The new rotomolded hull delivers ultimate stability while still maintaining performance and speed on the water. Logs? Kelp? No problem. Hobie Kick-Up Fins automatically retract on impact and adjust back into place once clear of the obstacle. Equipped with industry-leading fish features, you're guaranteed an unforgettable kayak fishing experience. On the Mirage Passport 12, easily install your fishfinder and mount a shallow water anchor of your choosing with a transducer cavity and scupper and a Pole® Micro bracket indent. Additional features include 8" Twist-N-Seal hatch, steering system with stowable rudder, two fishing rod holders, accessory tracks, and under seat and gunnel tackle storage. Designed for long days on the water, the breathable mesh seat provides maximum comfort.
